Airplanes

Wilbur and Orville Wright's first successful flight on the sands at Kitty Hawk, N.C. in December 1903 brought to reality man's eternal dream to conquer the air. Since that historic event right up to the present jet age, building scale replicas of famous airplanes has been a subject of interest to aviation enthusiasts of all ages. Originally built from scratch, airplane models were sometimes crude, sometimes highly detailed works of art. Today, through the miracle of plastics, model airplane kits offer a high degree of detail and realism. Monogram's line of model airplane kits ranges from historic biplanes of the '20s and '30s to the most modern supersonic jets of today and includes many classics from along the way. Each kit is developed through countless hours of background work and technical research and is an authentic reproduction of an actual aircraft.

AIR ACES

These kits are popular with model builders of all ages, many of whom will want to collect the entire series. Most are 1/72 scale, yet fantastically detailed. Molded in authentic colors.

DRAG AND STREET MACHINES

This popular series of 1/32 scale cars includes some favorites modified for drag strip performance as well as sport and street machines. All molded in color.

Cars

Since the early days of motoring, thousands of cars of different makes have come and gone. A coveted few have attained the status of "classics"... museum pieces to be gazed upon by throngs of admirers. Many old time cars outside of the ranks of the classics are sought by collectors to be restored as "special interest" cars, to be customized as "show cars" or souped up as "mean street machines." In recent years, sports cars and recreation vehicles have become an important part of the motoring world.

Early Iron®, show rods, classics, special interest, street machines, vans, trucks and sports cars. Car lovers can choose from many of their favorites in model kit form by Monogram.

Ships

For many centuries, the fascination of the sea has compelled men to build miniature replicas of sailing vessels. In days of old, it was common practice for sea captains to while away their spare hours whittling, carving and assembling exact models of the very ships on which they spent a good portion of their lives while at sea. Today's Navy ships are just as exciting and just as fascinating to modern day sea lovers. And building models of famous Navy ships is a hobby that is even more popular than in years gone by.

These Monogram kits are authentic reproductions of famous Navy vessels. Each is 16" long and mounts on a display stand with a name-plate decal. Highly detailed, they have all the characteristic features of the full size originals. The one-piece hull in each of these kits helps make the model easy to assemble. Packaged in attractive boxes.

TALL SHIPS

Old-time sailing ships from Monogram with new-style features in construction and design.

Monogram takes pride in presenting these highly detailed kits that take the *wait* out of model-ship building. These "Tall Ship" kits eliminate the tedium and increase the enjoyment of ship-building by including mast and spar units that are one piece. The hull is also one piece to avoid problems of fitting two halves together. With this new method of construction, the ship model begins to take shape within the first few steps of assembly and the modeler has something to show for his effort long before the finishing touches are applied.

Over 16" long when assembled, Tall Ships are most impressive display pieces. They're molded in black and "natural-timber" beige. The sails are detailed, off-white and are "billowed". One-piece, detailed ratlines and thread are included for complete rigging. Kit includes flag sheet and display stand.

The Tall Ship series includes three of the most famous historic sea craft of all time...

TROOPS AND VEHICLES

Molded in authentic color, Monogram Armor kits can be assembled without painting or carefully finished with a realistic appearance. Perfect for the current widespread interest in diorama building.

Armor

Building and painting scale models of historic armor weapons and vehicles is a unique hobby with many military enthusiasts. A skilled hobbyist can paint a 1/35 scale figure in lifelike realism including detailed facial features and uniform insignia. Tanks and other vehicles can be weathered and "battle-torn" to make them look authentic. Many military modelers will spend countless hours in research to get the proper historic background for the models they build, to be sure that all the details are accurate. Historic reference material also provides suggestions for building the assembled model into a diorama, which may often be a reproduction of an actual situation. Monogram kits are favorites of armor enthusiasts because of the highly realistic details in the models.

FLAP JACK®

SNAP TITE MODEL KIT

This action-packed model is like nothing you've ever seen before. It'll amuse and amaze everyone who sees it in action. And the kit is easy to put together because there's no gluing. It's a Snap Tite® kit and it SNAPS together. No painting necessary, either.

7503 FLAP JACK®

It's a bird... it's a plane... it's the wackiest propeller driven jet plane you could ever imagine! You've got to see it to believe it. Flick the prop and it spins and spins, driven by the battery powered "Touch 'n Go" motor. Wings flap up and down... machine guns move back and forth. And with all this going on all at once, this unique, action-packed aircraft bobs and bounces all around on its springy wire support. An irresistible novelty for all who see it.

Snap Tite®

**THEY SNAP TOGETHER!
NO GLUING NEEDED!**

Snap Tite® model kits are specially engineered with parts that SNAP together and stay together... without glue. Molded in colored plastic, they have decorative decals so the models can be completely assembled without painting if desired.

Designed for young and beginning modelers, Snap Tite® kits are also popular with many older and more experienced model builders who want a change of pace. The subject matter ranges from the wild funny cars to the realistically detailed airplane and truck kits. And they're packed in specially designed, eye-catching Snap Tite® boxes.

METAL

The magnificence of metal...in model kit form. The minute you feel the weight of a die cast model, you'll know that it's something special. You'll notice the look, the feel and the finish that only metal can give. Beautifully detailed throughout, these models, with their faithfully reproduced bodies, chassis, interiors and engines, are jewel-like miniatures of the actual full size cars.

All the body parts in these kits are die cast. They're clean and smoothly finished, making the kit a pleasure to assemble and assuring a perfect fit. The body can be painted, polished and waxed just like a full size car. The plastic parts are molded in color and there are many gleaming plated parts in the kits.

The finished display piece will impress anyone who sees it. The detail, realism and *feel* of the model will be especially appreciated when it is picked up to be closely studied. Three of the most popular sports cars and two classics are available in this 1/24 scale series. Many model car enthusiasts and collectors will want all five of these die cast metal kits.
